## NOTES ON CONTEST REGISTRATION

If you are planning to enter your models in the AMPS EAST contest this year, there are a few things you can do which may simplify registration and help improve your score:

1. Type up a description of exactly what corrections, additions, and modifications you made to your model. There will be an area on the registration form to simply attach this information. This will save you time, and allow the judges to clearly see all the work you've done.
2. On that same typed sheet, include a list of references that you used (if any) in your research.
3. Bring photos of your work in progress or reference photos showing just how much work you did to your model.

Following these simple guidelines will enhance your visit to AMPS EAST, and aid the judges in properly evaluating your work.

## NOTES ON CONTEST JUDGING

The AMPS open judging system has led the way in terms of fairness and credibility. Experience levels (Beginner, Intermediate, and Advanced) are established to eliminate the "intimidation factor" so often associated with most other shows. All models are judged using the AMPS modified open system, where contest entries are judged against a standard, not against other models.

This allows for an unlimited number of gold, silver, and bronze medals to potentially be awarded in each category. Every model is judged by a team of four judges who give the model a score from one to ten, with the lowest of the four thrown out. For a complete description of the rules, visit:

**Visit The Museum!!!**

The Military Museum of Southern New England features over 40 tanks, softskins, and artillery pieces. Most are in mint condition, running, and are the only example of the vehicle in the Western Hemisphere. The museum is only one exit East (exit 3 off I-84) of the Sheraton Danbury Hotel. Simply follow the signs to see what's on exhibit.
